Dear Doctor:

We appreciate your interest in the Diphasic Nutrition Plan (DNP). The DNP requires no testing, can be administered to all patients, and increases ADAPTATIVE CAPACITY by increasing VITAL RESERVES. On the DNP, your patients will experience a more powerful and lasting surge in Vital Reserves than from anything you have offered them until now.

Enclosed is a copy of the DNP brochure that you will give your patients. Reading it will give you a general overview of the plan. Also enclosed are your detailed instructions for administering the DNP, as well as the Balancing Procedure that most of your patients will do at the start of their DNP. Your DNP can be individualized for all your patients with a severe chronic pathophysiology --- those who suffer from extreme ImmunoNeuroEndocrine stress -- - as expressed in fibromyalgia, chronic fatigue syndrome, major depression, multiple chemical sensitivities, or post traumatic stress disorder, or, patients with autoimmune diseases such as rheumatoid arthritis, lupus, etc. ----- Your Diphasic Nutrition Plan is truly a comprehensive approach to clinical nutrition, allowing you to serve all your patients at the highest level of clinical excellence.

An in-depth presentation of the theory behind the Diphasic approach is attached ([NUTRI-SPEC letters from April 2001 to May 2002](#)). In that presentation you will also learn of the amazing combinations of nutrients in your DNP supplements. In short, your Diphasic Nutrition Plan will empower your patients' defenses against the 2 vitality-destroying pathological processes --- pathological hyperplasia and pathological dis-integration --- the 2 fundamental pathological processes that define premature aging. Your DNP supplements are specifically formulated combinations of metabolic activators, adaptogens, and anti-oxidants to give the Diphasic Metabolic Cycle a powerful boost.

THE DNP STARTER SPECIAL gives you a 20% discount on all the supplies you need to serve your first 5 DNP patients. If you have not already taken advantage of this DNP STARTER SPECIAL then you will want to order it as soon as possible so that you can get up and running. Please understand you can phone the NUTRI-SPEC staff at any time, and we will be happy to provide whatever additional information or assistance you need.
