

COMPLEX P

Complex P contains a blend of the nutrients that have a specific normalizing effect on a **Parasympathetic Metabolic Imbalance** when such is determined by your **NUTRI-SPEC** test procedures.

Never before the **NUTRI-SPEC** product line have supplements been available with such potent effects on the autonomic nervous system. Their potency comes not from megadoses, but from specific combinations of nutrients.

These products will promote metabolic balance and improved physiological function for the full spectrum of nutrition patients, from the degenerative disease sufferers to the competitive athlete.

A **Parasympathetic Metabolic Imbalance** can be associated with many conditions, including:

- blood sugar problems (hypoglycemia or diabetes)
- low energy
- indigestion; ulcers; bowel problems
- arthritis
- poor circulation
- nervous tension; depression
- weak heart
- allergies; asthma
