

OXY TONIC

Oxy Tonic is formulated to have an immediate yet lasting effect on the aberrant oxidative energy metabolism, the excess sterol fat activity, and the abnormal membrane permeability typical of the **Anaerobic** patient.

Oxy Tonic also balances the tissue acidity and systemic alkalinity typical of many patients with an **Electrolyte Insufficiency Imbalance**.

Each 570 mg (1/8 tsp) supplies:

105 mg. sodium and 147 mg. of
negative valence sulfur
