

FORMULA EI

The Nutri-Spec model of LIVE STRONGER LONGER is largely based on maintaining balance in Five Metabolic Control Systems.*

Formula EI contains a blend of the nutrients that have a specific normalizing effect on an **Electrolyte Insufficiency Metabolic Imbalance** when such is determined by your **NUTRI-SPEC** procedures.

Never before **NUTRI-SPEC** have supplements been available with such potent and specific biological activity. **Formula EI** is a dietary supplement to support health in balanced Electrolyte Metabolism. Its potency comes not from megadoses, but from specific combinations of nutrients.

Formula EI meets the nutrient needs of those who are functionally low in sodium and calcium, accompanied by inadequate Electrolyte/Water Balance associated with hypovolemia.*

This supplement will promote metabolic balance and improved physiological function for the full spectrum of nutrition patients, from those suffering with poor health to competitive athletes.

*These statements come from literature provided by the National Institute of Health, but have not been evaluated by the FDA. This product is not intended to diagnose, treat, cure, or prevent any disease.

FOUR CAPSULES SUPPLY:
