The Nutri-Spec model of LIVE STRONGER LONGER is largely based on maintaining balance in Five Metabolic Control Systems.*

Glutamine supplementation is a useful adjunct in balancing several of your NUTRI-SPEC Imbalances. These include:

- Dysaerobic Imbalance
- Glucogenic Imbalance
- Ketogenic Imbalance
- Parasympathetic Imbalance
- Sympathetic Imbalance

L-Glutamine provides uniquely specific and quite powerful nutrition support to healthy function of the intestinal lining, the nervous system, and the recovery of muscle after strenuous work out. L-Glutamine is also critical in generating cellular energy.*
