**BUY NOW**

Your FOREVER FIVE is your lifelong (“forever”) defense against the relentless environmental and emotional stresses of our modern world. These stresses put a continuous strain on your immune system and your nervous system --- leading to your ever more challenging battle to feel and look your best as the years go by. ----- Yes, “forever” means a lifelong plan ...

Scientific research now shows that no matter what health challenges plague you, inflammation is the cause. Science further shows that long-term inflammation not only leads to fading health, but also to the widespread lack of vitality that is now known as INFLAM-AGING. Any decline in health you feel, fits into this scientific model of INFLAM-AGING.

Take your FOREVER FIVE supplements daily --- FOREVER.

For decades, your FOREVER FIVE supplements were sold only for doctors, to serve their patients. Many of those patients have gained robust good health with these powerful synergistic combinations of ADAPTOGENS.

What are ADAPTOGENS? They include vitamins, minerals, and many other dietary supplements proved by research scientists to boost your health, so that you may ---

**LIVE STRONGER LONGER.**

After decades of experience serving hundreds of doctors and thousands of patients, we began to identify certain components of immune system and nervous system stress that were common to all patients, regardless of their individual health concerns. Scientific research of the past 20 years confirms that all these insidious attacks on health are associated with one of several types of inflammation --- inflammation that can be helped with ADAPTOGEN supplements (along with a healthy eating plan).

Unlike the health food store Flavors of the Month, your FOREVER FIVE anti-inflammatory supplements meet the criterion established by the scientific community --- that low-level, long-term inflammation can only be controlled by low-dose, long-term ADAPTOGEN supplementation. No large dose of any health food industry “remedy” is going to even make a dent in INFLAM-AGING.

Low-dose, long-term --- with your FOREVER FIVE.

**LIVE STRONGER LONGER!**
