

FORMULA ES

The Nutri-Spec model of LIVE STRONGER LONGER is largely based on maintaining balance in Five Metabolic Control Systems.*

Formula ES contains a blend of the nutrients that have a specific normalizing effect on an **Electrolyte Stress Metabolic Imbalance** when such is determined by your **NUTRI-SPEC** procedures.

Never before **NUTRI-SPEC** have supplements been available with such potent and specific biological activity. **Formula ES** is a dietary supplement to support health in balanced Electrolyte Metabolism. Its potency comes not from megadoses, but from specific combinations of nutrients.

Formula ES meets the nutrient needs of those who are functionally low in magnesium and potassium, accompanied by inadequate Electrolyte/Water Balance associated with hypervolemia.*

This supplement will promote metabolic balance and improved physiological function for the full spectrum of nutrition patients, from those suffering with poor health to competitive athletes.
