

NUTRI-SPEC

Live Stronger Longer

Nutri-Notes

July 14, 2023

WE WILL GIVE YOU \$100 CASH IF YOU CAN ...

show us a supplement (or a drug, or a magic potion) that can beat your REJUVENATOR --- NAC + Glycine, Carnosine, Lipoic Acid --- as per just this one (of countless similar) research studies:

Interleukin-6 is perhaps the nastiest of the inflammatory cytokines, and the ugliest force behind INFLAM-AGING. ----- Older adults have, on average, IL-6 934% higher than younger adults. That's 10 times the force driving INFLAM-AGING!!!

Yet --- after only 12 weeks of supplementation, IL-6 decreased in older subjects by 77% --- approaching the level found in youth! And this study supplemented only with NAC + Glycine, while REJUVENATOR gives you the equally powerful REJUVENINS Carnosine and Lipoic Acid.

Nothing can beat your power with NUTRI-SPEC to ...

LIVE STRONGER LONGER!
