Panicked Over Your loss of IS Restore?

Did you panic when you ran out of Immuno-Synbiotic Restore? We get it -- phenomenal product, for which there is no substitute. ----- Happily ---

We FINALLY have it for you.

Order Immuno-Synbiotic today! But wait! “Immuno-Synbiotic” and not “Immuno-Synbiotic Restore”? Relax! You haven’t lost your Restore. Your Restore is entirely preserved in your newly formulated Immuno-Synbiotic. (We’ll give you the full history on the development of Immuno-Synbiotic in an upcoming NS Letter --- why we went from 1 product to 3 products years ago, and are now blending Restore and X-Flam into one.)

To re-assure you that Restore has been entirely retained --- while also expanded --- here are the details ...

- Restore & X-Flam offered the same 2 PREBIOTICS = unchanged in your blended Immuno-Synbiotic.
- Restore offered 5 PROBIOTICS, and they are all in Immuno-Synbiotic.
- X-Flam offered 5 PROBIOTICS, and 4 out of the 5 are in Immuno-Synbiotic.
- Restore and X-Flam shared 3 of the same PROBIOTICS --- which means your new Immuno-Synbiotic gives you 6 PROBIOTICS --- essentially the 5 from Restore + 1 from X-Flam --- and ALL THE BENEFIT OF BOTH in strengthening your resistance to Immuno-Neuro-Endocrine Stress.
